The models shown above are the 1) The T-Roc Sport in optional 'White Silver' metallic paint with optional coloured roof in black & optional 19" 'Suzuka' alloy wheels.
2) The T-Roc Sport in optional 'Turmeric Yellow' metallic paint with optional coloured roof in black & optional 18" 'Moonboot' alloy wheels.

Designed to be seen

01

Sometimes it doesn't take long for a strong character to reveal itself. With the T-Roc, all it takes is one glance. The front design with its fog lights and static cornering light, with an optional LED ring-style design, exudes self-confidence. In the T-Roc Design, Sport and R-line, the roof and exterior mirror covers are available in black and provide an impressive contrast to the body paintwork.

01 Sporty and expressive throughout: the dynamic design of the tail light clusters ensures the T-Roc makes a striking impression from the rear as well. In the Sport and R-line, the rear lights come in dark red, further enhancing its confident appearance. The tail light clusters are equipped with long-lasting, energy-saving LED lights to guarantee good visibility during the day and at night.

Model shown is the T-Roc Sport in optional 'White Silver' metallic paint with optional coloured roof in black & optional 19" 'Suzuka' alloy wheels.

01

01 The optional burnished-effect 19-inch 'Suzuka' alloy wheels provide the T-Roc Design with style like no other. The alloys, along with the optional Design pack gives your T-Roc Design a bold profile while also giving you the freedom to show off your personal tastes. Combined with the optional two-tone paintwork, there are plenty of ways to make sure the T-Roc Design reflects your unique style.

Stand out from the crowd

The T-Roc always turns heads. One of its stand-out design elements is the unique C-pillar: a chrome gloss strip that emphasises the vehicle's coupé-esque, elongated roof. With the T-Roc Design and the optional Design Pack, you can make sure you get even more admiring glances. For instance, you can decide which colour should be used for the roof, A-pillar and exterior mirror covers to make sure your T-Roc Design really stands out.

Model shown is the T-Roc Sport in optional 'Turmeric Yellow' metallic paint with optional coloured roof in black & optional 18" 'Moonboot' alloy wheels.

Model shown is the T-Roc with fabric seat coverings in 'Basket' design and decorative inserts in Deep Black Pearl Matte design.

01 Interior. The interior in the T-Roc Sport, with the optional Sport Pack is both sporty and elegant with a black headlining, dash pad and decorative door trims in 'Caribou Grey', Titanium Black door panels and red ambient lighting. This creates a pleasant ambience while also making it easier to find your way around in the dark. The deluxe sports seats for the driver and front passenger with 'Gem' seat upholstery in Titanium Black/Ceramique provide good side support. Meanwhile, the aluminium pedals as part of the Sport Pack lend the vehicle a motorsport look.

Confidence comes from within

Robust, modern and elegant, the interior of the T-Roc embraces the future, combining an all-new design with Volkswagen's characteristic build quality. Unprecedented levels of functionality and technology, enhanced by ergonomic attention to detail - this places the T-Roc in a league of its own. With plenty of space for passengers and luggage alike, the T-Roc offers all you could ask for in terms of comfort, style and convenience.

Make it your own

The interior of the T-Roc Design continues where the exterior leaves off: with individuality right down to the last detail. Make the T-Roc your own with the many customisation options available. You are guaranteed the T-Roc will turn heads for all the right reasons!

01-02 Decide for yourself which colour you want for the design panel on the dash pad: 'Black Oak Brown', 'Ravenna Blue', or 'Kurkuma yellow' as part of the optionally available Design Pack. You'll also find your favourite colour on the side decorative trim and the trim in the centre console. To complement this look, parts of the centre seat panels come in your chosen colour, providing an exciting contrast.

03 The comfortable deluxe seats with optional special two-tone 'Tracks 4' upholstery and 'Kurkuma yellow' stitching as part of the Design Pack. The optional Design Pack for the T-Roc Design features white ambient lighting with illuminated decorative trim, reading lights in the front and rear, and footwell lighting to create a unique atmosphere while driving at night.

Model shown is the T-Roc Design with optional Design pack in 'Kurkuma yellow'. Optional extras displayed include Digital Cockpit Pro & 'Discover Media' navigation system (Optional on selected models only).

Infotainment

Multimedia to inspire. With the optional Digital Cockpit Pro and 'Discover Media' navigation function, you will arrive at your destination feeling stress-free and fully entertained.

Digital Cockpit Pro. The Digital Cockpit Pro provides a system that can be tailored to suit your exact preferences. The fully configurable, interactive 10.25 inch display replaces the standard analogue instrument cluster, displaying vehicle data and information on your dashboard. Five different modes allow you to customise the screen, with large or small dials as you prefer and a number of items displayed behind. When used in navigation mode in conjunction with the optional 'Discover Media' Navigation system, you can move the speedometer and rev counter to the edge of the display, creating more space for the navigational map. If you wish, you are able to include driving, navigation and assistance functions within the graphics of the speedometer. As the Digital Cockpit Pro is linked to all other assistance systems in the vehicle, any data shown in the centre console of the infotainment system, such as phone numbers or your music's compatible cover art, can also be displayed on the dash conveniently placed directly within the driver's optimum field of vision. Standard on Sport and R-line models. Optional on Design.

01 'Discover Media' navigation system. The optional 'Discover Media' navigation function comes with an 8-inch colour touchscreen display. It also boasts six loudspeakers, FM radio that can also play music in MP3, AAC and WMA formats, two SD card slots, a USB port and a Bluetooth connection¹ for mobile phones. Optional on Sport, R-line and R.

02 Composition Colour. The 'Composition Colour' radio system is equipped with a 6.5-inch colour touchscreen, SD card reader and USB connection. It also features Bluetooth connectivity¹, title and compatible cover art display and facilitates music playback from MP3, WMA and AAC files through two speakers front and rear. Car information display provides journey analysis and driver tips for more fuel efficient driving. Standard on T-Roc.

01

03 'Ready 2 Discover' radio system. The 'Ready 2 Discover' radio system is equipped with a glass-covered 8-inch colour touchscreen, Multi Device Interface (MDI), 6 speakers, SD card reader and USB connection. It allows music playback from MP3, WMA and AAC files, simultaneous pairing of two compatible mobile devices¹, SMS functionality, Bluetooth telephone and audio functionality, and provides driver tips and journey analysis via the 'Think Blue' Trainer'. Includes streaming and Internet functionality. Standard on Design, Sport and R-Line models.

02

03

¹ Devices must be Bluetooth HFP (Hands Free Profile) compatible, please contact your authorised Volkswagen retailer for specific phone compatibility.

Connectivity

02 We Connect 'Guide and Inform'. We Connect 'Guide and Inform' gives you online access to a wide range of useful information, such as; weather, exciting destinations in your surrounding area, nearby parking spaces or the next filling station. We Connect 'Guide and Inform'³ is standard on the optional 'Discover Media' touchscreen navigation.

01 'App-Connect'. 'App-Connect'² allows your T-Roc to connect with current Apple and Android smartphones through three innovative technologies: Apple 'CarPlay', Google 'Android Auto' and 'MirrorLink'TM. This enables you to 'mirror' your smartphone's most important functions, such as phone contacts, receiving and sending texts and music on the touchscreen of your infotainment system, and if you choose, you can even operate the system by voice control, allowing you to manage them simply and safely during your journey. Please note, only certified apps may be used while driving. Standard on Design, Sport, R-Line and R models.

03 We Connect 'Security & Service'. 'Security & Service' features functions that will make your journey even safer. The We Connect Service package offers you mobile access to important vehicle functions and combines security with transparency for even more comfort. A reassuring feature of 'Security & Service' is the Emergency Call Service. In emergency situations, your vehicle calls for help automatically or you can press a button to do so. If your Volkswagen detects an accident, the Service connects to the Volkswagen Emergency Call Centre and passes on key information. The Emergency call Centre will deploy the emergency services. Standard on Sport and R-line models.

04 Wireless Smartphone Charging. The wireless smartphone charger allows charging without the use of cables. The storage compartment in the front centre console contains a wireless charging pad that you place your phone on top of to charge. The advantage of wireless charging is that it's quicker and easier, as you don't have to plug and unplug each time and it also looks neater without any trailing cables. Non-Qi-compatible smartphones can be retrofitted with a cover or wireless charging module to allow operation, Optional on Design, Sport, R-Line and R models.

Please see www.qinside.biz/en/support/qi-enabled-phones-2021 for full details.

² Only operable in conjunction with compatible smartphones. Please see www.volkswagen.ie to check smartphone compatibility.

³ We Connect 'Guide and Inform' and 'Guide and Inform Plus' services are accessed via a compatible mobile device. Please see www.volkswagen.ie for more information.

The use of 'Guide and Inform' services entails exchanging large volumes of data. As such, we strongly recommend that you sign-up for a flat rate data plan with your mobile network provider. After the initial 3-year We Connect contract, an annual subscription is chargeable for the continuation of We Connect 'Guide and Inform' services.

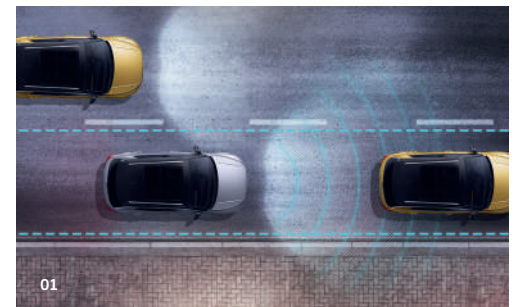

Driver assistance systems

A confident appearance is easier to harness when you know its strengths. Thanks to the T-Roc's innovative driver assistance systems, your journeys are more enjoyable. Advanced safety features mean you're always prepared for the unexpected. From audio alerts that warn you about cars, pedestrians and obstacles that are too close to your car, to emergency braking systems that reduce the risk of an accident and lessen the impact of a collision. The T-Roc gives you a helping hand when you need it most.

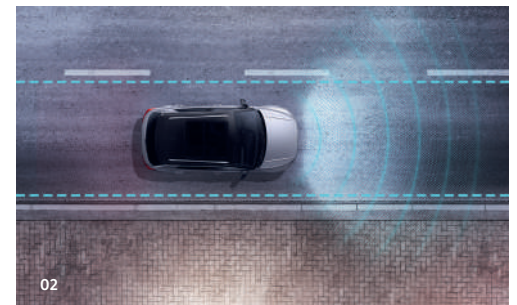

01 Adaptive Cruise Control and Speed Limiter.

Adaptive Cruise Control (ACC), including 'Front Assist', 'City Emergency Brake', Cruise Control and Speed Limiter, offers you intelligent control of your driving speed by automatically adjusting acceleration and braking. Whether around town or on the motorway, the system will adjust your speed to that of the vehicle in front, keep your specified distance, warn if you are approaching too fast and in an emergency situation, generate enough braking force to try to reduce the severity of a collision or possibly even prevent the collision entirely. Standard on Design, Sport, R-Line and R models.

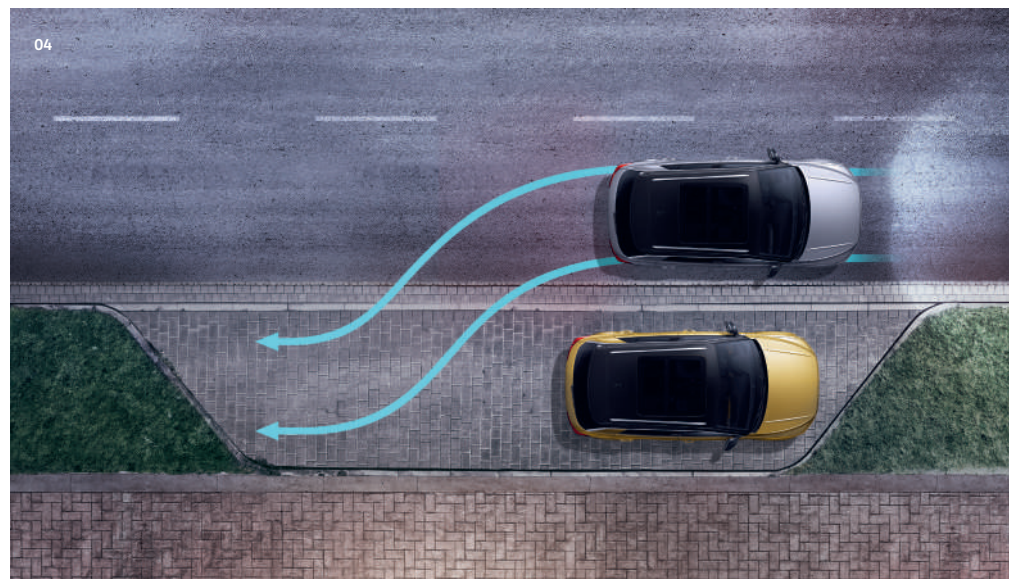

02 Lane Assist.

Long car journeys can take a lot of concentration from the driver. Luckily, the T-Roc is equipped with the lane departure warning 'Lane Assist' as standard. This system can help to avoid accidents. As far as is feasible, the system detects road markings by means of a camera and corrects your steering if you start to leave your lane.

03 Forward collision warning 'Front Assist' with pedestrian recognition warning. You can make driving more relaxed with the standard 'Front Assist' area monitoring system including a 'Pedestrian Monitoring' function. When a critical situation is detected within the limits of the system, 'Front Assist' issues a warning for the driver. If the danger is not averted, the system automatically initiates braking. This also increases protection for pedestrians who suddenly step out into the vehicle's path.

04 Park Distance Control. The optional Park Distance Control simplifies parking in difficult parking spaces. Within the limits of the system, it uses acoustic signals and a graphic display to warn you of obstacles in your path. Optional on T-Roc and R models and standard on Design, Sport and R-Line.

The T-Roc R

experience more R

Sporty from start to finish. The combination of a powerful engine and cutting edge steering and braking technology is perfect for all those who don't just appreciate a sporty design, but want to live out that performance on every journey.

Strong Performance

The engine is ready to show off its power. 221 kW (300 PS) enables acceleration of 0 to 100 km/h in 4.9 seconds. This is thanks to modern TSI technology which gets top performance out of a small capacity using turbocharging and direct injection. This also means you get extreme torque, even at slow speeds.

01 The T-Roc R's 17-inch brakes ensure remarkable deceleration. They also offer a real visual highlight in the form of the distinctive "R" logo on the front brake callipers.

The standard progressive steering increases the driving dynamics thanks to the more direct response. What this means for you is a high degree of control and comfort, a more enjoyable drive on extremely curvy roads and an improved performance of your vehicle.

02 The optional titanium exhaust system not only looks great, it sounds great too. The system developed together with Akrapovič is highly temperature-resistant thanks to its titanium alloy and is distinguished by its unique, rich sound. It's also 7 kg lighter than the standard equipment, and visually emphasises the all-out sporty character of your T-Roc R.

Driving Experience

The 4MOTION all-wheel drive system makes sure the engine's power is spread over all four wheels as required. This prevents wheel spin and locking and helps your car gain traction on virtually any surface.

In combination with the 7-speed DSG dual clutch gearbox, it also accelerates efficiently without traction loss in nearly every situation.

Take the handling and driving pleasure of the T-Roc R to unprecedented heights thanks to the firm tuning of the springs, shock absorbers and anti-roll bars of its standard sports running gear. So it's high time to unleash your inner speed demon.

If you care about sportiness, the T-Roc R is clearly the right choice. For each journey you can choose how sporty you want your drive to be thanks to the driving mode selection.

When you start with the launch control function you'll notice that the system adjusts the clutch and gear shift mechanism to make your car accelerate as fast as possible, with optimum wheel speed. In other terms: unbelievable acceleration from standstill, and goose bumps guaranteed - especially if you switch off the Electronic Stability Control (ESC) feature. This will give you control of the vehicle even when driving at the limits.

Design

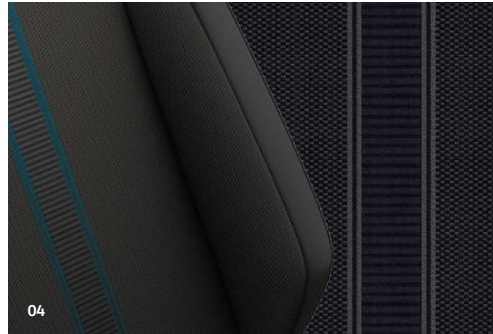

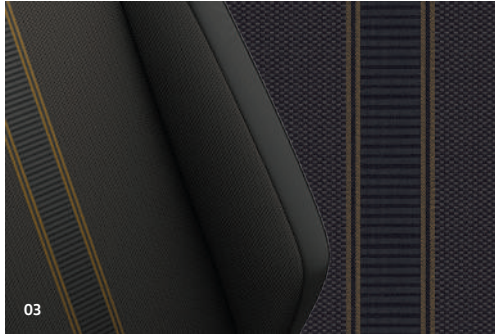

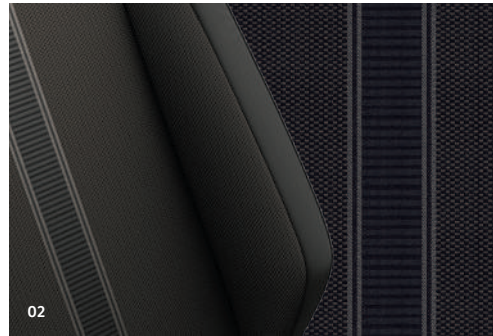

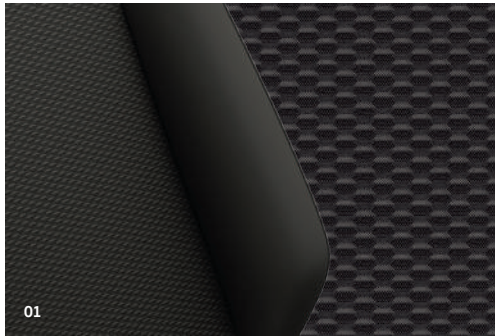

The T-Roc R has racing built into its DNA. You can feel it every time you drive and see it at a glance too. Every single detail of the interior and exterior design radiates sportiness from.

01

01 T-Roc's LED headlights are a visual highlight themselves and they can effortlessly cast brilliant light in any situation. It also features a separate daytime running light which is integrated into the R-bumper. You'll leave a sporty impression wherever you go.

Upholstery

World of Volkswagen

Engines

For a full overview of engine availability, please download the T-Roc product guide at volkswagen.ie

Fuel Consumption

Combined Fuel Consumption l/100km (min. - max.): 4.7 – 8.9. Combined CO₂ emissions g/km (min. - max.) 123 – 202. Increased weight of a vehicle, including higher trim levels and the addition of options may have an effect on the fuel consumption and CO₂ emissions produced. The CO₂ and fuel consumption figures are the official figures obtained from tests under standardised EU test conditions.

The specified fuel consumption and emission values are the official figures obtained from tests under standardised EU test conditions in accordance with the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test method for measuring fuel consumption (l/100km) and CO₂ emissions and are correct at the time of print. WLTP replaces the previous NEDC test method. The WLTP Min. values refer to the minimum values of the standard entry version excluding additional equipment such as optional extras and accessories which may have an effect on the fuel consumption (l/100km) and CO₂ emissions produced. The WLTP Max. values refers to the maximum value achieved considering optional extras. To discover exact values please configure your desired vehicle at volkswagen.ie/build. You can discover more about the WLTP at volkswagen.ie/wltp

The Volkswagen Warranty

Three-year manufacturer's warranty*

All T-Roc models come with a three-year warranty which protects your car against the failure of most mechanical and electrical components due to manufacturing defects. Your vehicle should be serviced in accordance with the manufacturer's specifications. Any damage to or defect in the vehicle caused by poor or insufficient servicing will not be remedied under the vehicle's warranty. Full details of the three-year warranty are available from your authorised Volkswagen retailer or at volkswagen.ie

* The first two years have an unlimited mileage warranty. The third year warranty has a limitation of 90,000km.

Three-year Paint Warranty

The paintwork of the T-Roc is covered against manufacturing defects for a period of three years. Naturally, the T-Roc must be cared for in compliance with the operating instructions which will be found in your vehicle handbook. Please consult your Volkswagen retailer for full warranty details.

12-year Body Protection Warranty

The internal body sections and panels of the T-Roc are covered against rusting through from the inside for 12 years. Naturally, the T-Roc must be cared for in compliance with the operating instructions. Please consult your Volkswagen retailer for full warranty details.

Service Intervals for Engines

Full details of what checks and work are recommended at each service are contained in the Service Book and your retailer will be able to advise you of any particular requirements.

Approved Accessories

A comprehensive range of accessories from alloy wheels to carpet mats is available to complement the factory-fitted option list.

Volkswagen Finance

Volkswagen Finance offers a dedicated service to meet the needs of both the business user and the private motorist. We can help you choose the right type of finance and will tailor the package to meet your specific requirements. Please consult your Volkswagen retailer for details.

Volkswagen Assistance

Every new car is registered for Volkswagen Assistance for three years. This provides vehicle recovery in the unlikely event of a breakdown (subject to conditions).

Please Note:

Every effort has been made to ensure that the contents of this publication (including CO₂, fuel consumption and technical information) were accurate and up-to-date at the time of going to press June 2021. Please be aware that model year and other

changes (including specification or individual options) may impact on fuel consumption or CO₂ figures. Please check with your retailer regarding any queries on a specific model or chassis number. Volkswagen Ireland reserves the right to change specifications and withdraw products from sale without notice. Any such alterations will be notified to Volkswagen retailers at the earliest opportunity; please consult your local Volkswagen retailer for the latest product information.

Some illustrations in this brochure do not necessarily reflect Irish specifications. Consequently, controls and some items of equipment are positioned differently for Ireland.

The specifications contained in this brochure are for information purposes only as we cannot confirm the exact specifications of the vehicles. If you require any specific feature, you must consult your Volkswagen retailer who is regularly updated with any change in specification. Please check model availability and full specification details with your Volkswagen retailer prior to ordering.
