¹ Private Customers state subsidies comprise of VRT relief and SEAI (Sustainable Energy Authority of Ireland) grant, Business/Commercial Buyers state subsidies comprise of VRT relief, all of which are subject to approval.

²ID.3 1st model variants are subject to availability. Please consult with your preferred Volkswagen retailer.

³All prices (Retail, Delivery and ROTR) are recommended by Volkswagen Ireland and are inclusive of VAT.

⁴The specified fuel consumption and emission values are the official figures obtained from tests under standardised EU test conditions in accordance with the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test method for measuring fuel consumption (kWh/100km) and CO₂ emissions and are correct at the time of print. The above values reflect the standard vehicle excluding additional equipment such as optional extras and accessories which may have an effect on the fuel consumption (kWh/100km) and CO₂ emissions produced. To discover exact values please configure your desired vehicle at volkswagen.ie/build. You can discover more about the WLTP at volkswagen.ie/wltp.

⁵VRT Bands and rate of annual Road Tax are valid as of 1st January 2021 and calculated from the base model WLTP values for model year 2021 cars produced from CW48/2020 onwards. All vehicles with TBC are subject to EU type approval and with that were not available at time of going to print.

Please note every effort has been made to ensure the contents of this publication (including RRP, CO₂, fuel consumption and technical information) were accurate and up-to-date at the time of going print 25th March 2021. Volkswagen Ireland reserves the right to change specification, prices and withdraw products from sale without notice. Any such alternations will be notified to Volkswagen Retailers at the earliest opportunity. Please consult your local Authorised Volkswagen retailer for the latest product information.

** These are average charging times that can vary depending on certain conditions, such as temperature.

The specified fuel consumption and emission values are the official figures obtained from tests under standardised EU test conditions in accordance with the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test method for measuring fuel consumption (l/100km) and CO₂ emissions and are correct at the time of print. The above values reflect the standard vehicle excluding additional equipment such as optional extras and accessories which may have an effect on the fuel consumption (l/100km) and CO₂ emissions produced. To discover exact values please configure your desired vehicle at volkswagen.ie/build. You can discover more about the WLTP at volkswagen.ie/wltp.

¹VRT Bands and rate of annual Road Tax are valid as of 1st January 2021 and calculated from the base model WLTP values for model year 2021 cars produced from CW48/2020 onwards. All vehicles with TBC are subject to EU type approval and with that were not available at time of going to print.

Importantly note that the rate at which your vehicle pays Vehicle Registration Tax may increase as a result of your vehicle configuration. For more information, please consult your local Authorised Volkswagen retailer.

Please note every effort has been made to ensure the contents of this publication (including RRP, CO₂, fuel consumption and technical information) were accurate and up-to-date at the time of going print 25th March 2021. Volkswagen Ireland reserves the right to change specification, prices and withdraw products from sale without notice. Any such alternations will be notified to Volkswagen Retailers at the earliest opportunity. Please consult your local Authorised Volkswagen retailer for the latest product information.

ID. Charger

The ID. Charger will enable you to charge your EV seamlessly, making it ready to depart on your next journey. All you need to do is order the ID. Charger online from your retailer and we will look after the rest including a remote home check, installation and setup.¹ For eligible private customers, SEAI offer an EV Home Charger Grant of €600 towards the cost of purchasing an ID. Charger with Installation.

There are three different variants of our ID. Charger:

ID. Charger

- » Charging performance – up to 7.4 kW AC (single-phase) or 11 kW AC (three-phase)
- » The attached (Type 2) charging cable is fixed to your ID. Charger with an option of 4.5 m or 7.5 m length
- » Integrated DC fault current detection ≥ 6 mA - no RCD type B required (Saving up to €200)
- » Dynamic load management (Blackout Protection) ready²

ID. Charger from €494
ID. Charger + Installation from €729*

(*From €1,329 before SEAI Grant³)

ID. Charger Connect (In addition to ID. Charger)

- » Wi-Fi/Ethernet communication
- » Secure and stable LTE mobile communication⁴
- » Safe data transfer using the latest standard (OCCP 2.0)
- » Safe access control with RFID card
- » Remote access via Volkswagen We Connect ID. app
- » Future proof via remote software updates
- » Plug & Charge (ISO 15118) via software update

Standard Installation package

You order. We'll take care of the rest. We offer everything you need to start your electrifying future. The following services are included in our standard installation package:

- » Remote/Virtual Home Check and if necessary Physical On-Site Home Check
- » Up to two wall openings
- » Up to 15 m cabling from fuse box to ID. Charger
- » Residual current and wiring protection
- » Installation and commissioning

Installation Package Benefits

- » Comprehensive Installation package and ID. Charger from one supplier
- » Professional and Safe Electric Registered Electrical Contractor (REC)
- » Installation of fuses recommended by law
- » 24-month guarantee on the Installation
- » Seamless on-site and after sales support

¹ The customer should apply for the SEAI grant before ordering the ID. Charger. Please see www.seai.ie for further information.

² Our standard installation package does not include a Dynamic Load Management solution. Whether this is required will be jointly evaluated during the remote home check with the installation provider. Homes with other large power consumers such as electric shower or heat pump need this solution to manage the total house load. In case it is needed, our installation partner will offer it directly to you for approximately €240.

³ For eligible private customers, SEAI offer an EV Home Charger Grant of €600, see www.seai.ie for further information.

⁴ Optional add-on €215
