ROTR Price = Recommended On the Road Price.

* All prices (Retail, Delivery and ROTR) are recommended by Volkswagen Ireland.

The specified fuel consumption and emission values are the official figures obtained from tests under standardised EU test conditions in accordance with the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test method for measuring fuel consumption (l/100km) and CO₂ emissions and are correct at the time of print. The above values reflect the standard vehicle excluding additional equipment such as optional extras and accessories which may have an effect on the fuel consumption (l/100km) and CO₂ emissions produced. To discover exact values please configure your desired vehicle at volkswagen.ie/build. You can discover more about the WLTP at volkswagen.ie/wltp.

¹VRT Bands and rate of annual Road Tax are valid as of 1st January 2021 and calculated from the base model WLTP values for model year 2021 cars produced from CW48/2020 onwards. All vehicles with TBC are subject to EU type approval and with that were not available at time of going to print.

Importantly note that the rate at which your vehicle pays Vehicle Registration Tax may increase as a result of your vehicle configuration. For more information, please consult your local Authorised Volkswagen retailer.

Please note every effort has been made to ensure the contents of this publication (including RRP, CO₂, fuel consumption and technical information) were accurate and up-to-date at the time of going print 1st March 2021. Volkswagen Ireland reserves the right to change specification, prices and withdraw products from sale without notice. Any such alternations will be notified to Volkswagen Retailers at the earliest opportunity. Please consult your local Authorised Volkswagen retailer for the latest product information.

The specified fuel consumption and emission values are the official figures obtained from tests under standardised EU test conditions in accordance with the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test method for measuring fuel consumption (l/100km) and CO₂ emissions and are correct at the time of print. The above values reflect the standard vehicle excluding additional equipment such as optional extras and accessories which may have an effect on the fuel consumption (l/100km) and CO₂ emissions produced. To discover exact values please configure your desired vehicle at volkswagen.ie/build. You can discover more about the WLTP at volkswagen.ie/wltp.

¹VRT Bands and rate of annual Road Tax are valid as of 1st January 2021 and calculated from the base model WLTP values for model year 2021 cars produced from CW48/2020 onwards. All vehicles with TBC are subject to EU type approval and with that were not available at time of going to print.

Importantly note that the rate at which your vehicle pays Vehicle Registration Tax may increase as a result of your vehicle configuration. For more information, please consult your local Authorised Volkswagen retailer.

Please note every effort has been made to ensure the contents of this publication (including RRP, CO₂, fuel consumption and technical information) were accurate and up-to-date at the time of going to print 1st March 2021. Volkswagen Ireland reserves the right to change specification, prices and withdraw products from sale without notice. Any such alternations will be notified to Volkswagen Retailers at the earliest opportunity. Please consult your local Authorised Volkswagen retailer for the latest product information.
