

EVOLUTION NEXT STEP

Oettinger Aerodynamic Design
For the Base Volkswagen Golf

oettinger®
FIRST CHOICE SINCE 1946

With a stylish design and facing the future, this is how the Golf presents itself in its latest version.

The Oettinger aerodynamic enhancements – all produced to the highest quality and made to fit perfectly – provide noticeably more dynamics and sportiness and turn the base model Golf into a real eyecatcher. A further highlight, and optimally suited to the Oettinger Aerodynamic package, are the strikingly beautiful 18" Original Volkswagen "Pretoria" light alloy rims with a noble gloss black finish.

FRONT SPOILER

Part No.: 5H0.071.606. GRU

SIDE SKIRTS (SET)

Part No.: 5H0.071.685. GRU

REAR DIFFUSER, 3-PIECE

**ALLOY RIMS 18" PRETORIA
7.5 X 18 ET 51**

Part No.: 5G0.071.498.A .AX1

The roof spoiler is supplied with a gloss black finish, 041. The front spoiler, side skirts and rear diffuser are supplied primed, ready for painting. All products mentioned are available as Volkswagen Accessories from your Volkswagen dealer.

FUNCTIONAL DESIGN

SPORTY LOOK

Sporty, Chic and practical:

The middle section of the rear diffuser can be removed in just a few steps to allow access to a towing hitch.
